

Introducing the

Extreme Networks  
Users Group

Founded for the sole benefit of Extreme Networks end users

Nothing is constant in the networking industry — except for change. Changes in telecommunications impact all businesses, whether you are a service provider, enterprise, e-commerce, or a dot-com. Extreme Networks understands that customers need to be informed of the latest issues in the networking industry and on Extreme hardware and software in order to stay competitive.

That's why the Extreme Networks Users Group has been developed — to provide a valuable resource and forum for customers to exchange and discuss networking issues, knowledge, experience, and opinions with other Extreme end users and to gain access to resources exclusively for Extreme customers.

We are laying the foundation for a customer-driven organization aimed at providing the highest value to its members. We are a customer-committed organization and the Users Group serves as a forum for us to listen and learn from our most valuable asset, our customers and users. And we want you to be part of it.

For more details, hit our Users Group web site at [www.extremenetworks.com/go/user.htm](http://www.extremenetworks.com/go/user.htm).

**The networking industry  
transforms itself at lightning speed,  
and we want to keep you up-to-speed  
so you don't miss a beat.**

## Why should I join?

These are a few reasons why.

- To exchange technical information regarding the networking industry and Extreme products with your fellow packet-heads
- To attend informational and interactive Users Group events containing round-table discussion groups and keynotes from Extreme executives
- To be informed about Extreme products and developments that affect your network and bottom line — your business
- To gain access to our technical resource library
- To sign up for the Users Group section of Extreme Velocity, a monthly email newsletter which will contain articles on Extreme Networks Users Group developments, product updates, solution partner profiles and new technology tips.
- To influence and provide valuable input on Extreme Networks' strategic and technical direction that will benefit your business

## How to join:

- You must be an end user with installed Extreme Networks products and you must complete a membership form at [www.extremenetworks.com/go/user.htm](http://www.extremenetworks.com/go/user.htm). It's that simple. And there is no fee for membership.

Hit [www.extremenetworks.com/go/user.htm](http://www.extremenetworks.com/go/user.htm) and join the Extreme Networks Users Group today.
